

# Branching Out with FamilySearch Apps

Spencer Wells

Staff, Williamsburg (Virginia) Family History Center

## Getting your family interested in genealogy has never been so easy!

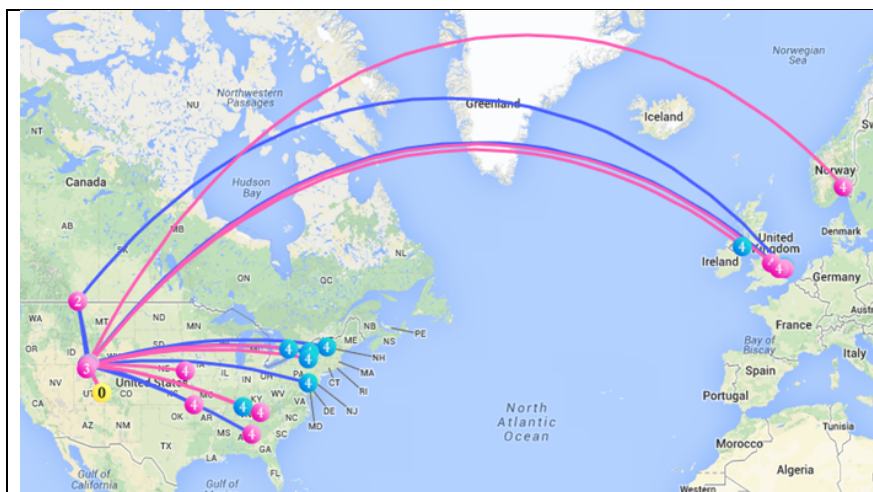

- Grandma's Pie, Geneapordy, and RelativeFinder are products of the BYU Family History Technology Lab. These apps are all available at [fhtl.byu.edu](http://fhtl.byu.edu). RootsMapper was developed by Withers Bros (brothers Mitch and Drew Withers).
- Access all of these apps using your \*FamilySearch.org login and password. The first time you log in to each app, you will be prompted to [Accept] the terms.
- Relationships and locations for these apps come directly from information in the FamilySearch Family Tree. (Correcting the tree will help these apps give you better results.)

\*Requires FamilySearch.org account (free).
